

Rejecting candidate explanations

Neatly and graphically represent situation(s)

	Explanation/Speaker A	Explanation/Speaker B
Proposition		
Graphically represent <u>quantities</u>		
Overlay or juxtapose hypothetical relationship and experimental observations using a common graphical format (e.g. scatterplot and hypothetical curve overlaid on a common system of axes, quantities displayed using neighboring bars in bar charts, vector diagrams drawn side by side, etc.)		
Conclusion	Rejected Formally possible	Rejected Formally possible
